

Balancing Eagle

Not exactly sure how they achieve this, but all would agree - very impressive. As it balances - it will keep everyone amazed and enthralled as it will never fall!

Description

Be ready to be impressed!

A great gift that Dad and the Kids will love to put on display.

It will keep everyone amazed and entertained as it spins and rocks back and forth - but never falls - its beak will not dislodge even with the most-boisterous nudge.

It will even balance perfectly on your fingertip.
