Description

The Kids will love Experimenting with These!

Made from soft flexible Pink plastic, this gift item is great to use as a non-slip device, on Mum's car dash or console.

However, it is in pride-of-place in the bathroom, with both sides of the foot-shaped matt covered with little suction cups.

To use, press one side against any smooth surface, for example vertical bathroom tiles. Once in place - shampoo bottles, soap bars and the like, can be pressed into the matt so they stay securely in place - Like Magic!

Measures approximately 12 x 7 x 0.8cm.
