### Description

Cool Coconut jewellery pieces have been popular with beach lovers since the turn of the century...

**Cool Coconut** began life as a market stall on Bondi Beach during the Sydney Olympics in the Summer of 2000. The beach was pulsating with people from all around the world, and they... especially loved the coconut shell necklaces! Every time Duncan (founder) explained they were made of coconut, the answer was always the same...**Cool!** **And so Cool Coconut was born!**

Cool Coconut is inspired by the pride, patience, talents and skills of their jewellery artists and believes that every piece of jewellery produced is looking for a new owner to love it as their own.
