Description

Perhaps these are the Prefect Prank!

Image is for illustrative purposes only. Actual product may vary.

The centre ball is 3D and protrudes from the sticker with the sticker surrounding the ball appearing to be completely shattered.

The sticker measures approximately 18cm round.

The manufacturer promotes that they can be used, lifted and used again. However, we found you risked damaging the sticker when removing it - so not such a great idea to re-use!
