Description

Barbara Ward says...This book should come with the following warning.....

"Upon opening the cover prepare yourself for a marathon read. Make sure you have an ample supply of beverages and bowls full of munchies, a comfy place to snuggle into and a large box of tissues.
You are going to be there for a while."

**Miss Hill has an amazing natural gift as a writer and is a fabulous story teller.
This combined with her wit and humour are what make this memoir a compelling read.**

You will be utterly transfixed on this journey. Your emotions will run wild, you will laugh until your stomach hurts, cry all the tears from your eyes and then some.

Extremely raw and very courageous.
