### Description

The Game of Kings - Fun & Challenging!

A fab game with lots of benefits for the whole family.

Studies have shown that it exercises both sides of the brain, raises your IQ and helps to prevent dementia - so a wonderful activity for Grandad too!

It also improves your memory, creativity and problem solving skills. And it that is not enough already, chess improves concentration, ability to plan and is an activity that leads to improved reading.

This magnetic set is wonderful for use on the kitchen table or portable enough to take anywhere.

Board measures 19.5 x 19.5cm open.
