Description

Super Compact & Particularly Handy!

Power via a USB port... you can connect to a power bank, laptop or desktop computer.

Makes for comfortable reading, when the light gets low or as a torch light on your power bank, when your electricity fails.

The flexible stem is convenient for easy positioning - ideal for lighting up small places for that quick tricky job whether indoors, outdoors or under the drivers' seat in your car.

Comes in assorted colours. Measures 17cm in length.
